MEET THE TEAM

SERVICES

Medical Interpreting

In-person interpreting of health care services/procedures from Mixteco to English.

Cultural Awareness Training

The aim of the cultural awareness discussion is to review differences that providers might encounter when providing care to their patients by providing an overview of traditions and beliefs that come with indigenous populations.

Qualifying Interpreters

Participants in this competitive and rigorous 10-week program are challenged and trained in a wide range of subjects as they become ready to serve within the healthcare setting.

Development of Educational Material

Herencia Indígena works to create educational material for patients in their preferred language.

STATISTICS

Herencia Indígena Advocates/Interpreters have an average rating of 9 out of 10 for overall experience amongst 754 providers.

REVIEWS

"The interpreter was very professional and easy to work with. He connected with the patient while providing direct translation for what I was saying."

"All the interpreters are amazing, they are so helpful and always there when we need them."

"Highly necessary service that helps patients to understand healthcare instruction; facilitates patient care."

"I really think the Mixteco interpreters have been a great value added to our organization. The families better understand the care and trust that we are giving; the care that matches the families values. I don't know how we functioned without them. Thank you so much for partnering with our community."
